OUR WIDE PRODUCT RANGE

— Many years of know-how acquired worldwide, an extensive stock programme and trading partnerships with premium pipe mills: The BUHLMANN GROUP offers the necessary knowledge and the appropriate product range to support you in all your challenges.

Mechanical Applications

- Components ready to weld
- Agricultural machines
- Anchor systems
- Steel construction
- Hydraulic cylinder
- Rollercoaster
- Bridges
- Mechanical and plant engineering
- Gearboxes and drive systems
- Machining technology
- Automotive
- Shipbuilding
- Axles and shafts
- Gears and rollers
- Cranes

It is our aim to support you as our customer with our service and our competences in finding individual solutions. We are the right partner when it comes to these quality products:

- Heavy wall tubes
 - Hydraulic cylinder tubes
 - Hollow sections
 - Forged components
 - Round bars
 - Fine grain steel tubes
 - Hollow bars for machining
 - Case hardening and quenching and tempering steels

Pipes for mechanical applications

E235	E275	E355
E420	E470	E590 K2
16MnCr5		

Pipes for steel construction

S275J0H	S355J2H	St52-3
S420MH	S460NH	S690
S770	S890	S960

Case hardening and quenching and tempering steels

25CrMo4	42CrMo4	C45	C60
---------	---------	-----	-----

and many more materials...

Please do not hesitate to contact us about our special materials, which offer notable advantages in machining due to specific modifications.

Inspections and material tests as well as the mechanical processing of tubes, blasting, coating and sawing or the production of complex components according to customer requirements round off our range of services.
